## **ALLOWANCE**

### ***Election/Restrictions***

This application is in condition for allowance except for the presence of claim 30 directed to a specific embodiment of Applicant's invention enumerating a tri-level monitoring system with specific associated functionalities requiring further search and consideration, and as such, Claim 30 is non-elected without traverse. Accordingly, per a telephone interview with Applicant's Attorney, Carlos R. Villamar on 15 February 2006, Claim 30 has been cancelled.

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

After extensive searching and analysis of the best prior art in light of Applicant's claimed invention, Examiner finds that the combination of applied references, (Hollenberg '335, Yavatkar '702 and Davis '952), do not disclose all of the claim limitations of the claims as amended within Applicant's request for continued examination dated 13 January 2006.

Additionally, further search and consideration has revealed the following prior art:

US Patent US 6,981,146 B1 to Sheymov;  
US Patent US 6,748,540 B1 to Canestaro; and  
US Patent 5,864,683 to Boebert.

Careful consideration of the additional prior art alone and in combination with the previously cited prior art does not read upon each and every claim limitation, as enumerated within Applicant's request for continued examination dated 13 January 2006. Moreover, Examiner finds that absent improper hindsight reconstruction of Applicant's invention, one of ordinary skill in the art would find no motivation to modify and/or combine any of the aforementioned prior art in order to create all aspects of Applicant's invention as recited within the new claim language enumerated within Applicant's request for continued examination dated 13 January 2006.

Thus, Examiner finds Claims 1-16, 21, 22 & 27-29 to be allowable.

***Claim Rejections - 35 USC § 112***

Examiner finds that Applicant's amendment of Claim 28 is proper and thus rejection under 35 USC § 112 is hereby withdrawn.

***Terminal Disclaimer***

Examiner requires a Terminal Disclaimer for application no. 09/925,503 to Sheymov. The terminal disclaimer filed on 16 February 2006 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of Application No. 09/925,503 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
